Rare Plant

NURSERY

CAMELLIAS

AZALEAS

RHODODENDRONS

CAMELLIA, LADY KAY

SEASON 1952

MAIN ADDRESS

**605 South San Jose-Los Gatos Road
CAMPBELL, CALIFORNIA**

Halfway between San Jose and Los Gatos on State Highway 17

TERMS AND CONDITIONS

All prices are F.O.B. our nursery. Order for over \$10.00 packed free of charge, less than \$10.00 add 50c. Cash with order unless an account has been established with us. No C.O.D. order accepted. Californians, add 3% sales tax.

PACKING AND SHIPPING

Plants are packed in lightweight cardboard cartons to make them as light as possible, and are sent Express collect. Our responsibility ceases upon delivery to forwarding company, and any claims for damaged plants should be made to them. We are a "Pinto Tag" Nursery and plants shipped inside California need no "destination inspection" excepting in the counties of Butte, Colusa, Sutter, Tulare, Ventura and Yuba.

Plants being shipped to the South Atlantic and Gulf States require "bare rooting." The soil is carefully WASHED from the roots and the plant is RE-PLANTED, in the same container, with pure peat. It may be left to grow as you receive it, or may be transplanted to the garden. Feeding is necessary if left in the peat—preferably liquid. This has been a very successful mode of shipping and, of course, is a big savings on Express charges because of the light weight.

PLEASE NOTE

While we exercise every precaution to insure Quality and Variety—liability in all instances is limited to the purchase price. We will be glad to correct our mistakes.

SPECIAL CAMELLIA LIST

LADY KAY. HERTRICH AWARD WINNER FOR 1951. Cherry red, blotched white, peony type sport of Ville de Nantes. The picture shown was taken from a third generation plant. Has all the good habits of the parent but blooms about three weeks later. Young buds will have the long taper of the parent but as the bud begins to swell for opening, the end will "square off." We think it is a very worthwhile addition to the Camellia world and certainly there is nothing like it.

1 yr. graft on 3 yr. understock...\$15.00
1 yr. graft on 5 yr. understock... 25.00
(Sorry, no 2 yr. grafts)

BERTHA A. HARMS. A lovely lady and a lovely flower. Very large flesh pink, semi-double; cross of Lotus x Lady Clare made by Mr. Harms of Portland. Strong upright growth, midseason bloomer.

1 yr. graft on 3 yr. understock...\$7.50
1 yr. graft on 5 yr. understock...12.50

C. M. WILSON. Light shell pink sport of Chandleri Elegans. If it were possible to improve on Chandleri, this variety would be it.

1 gal.\$2.50
1 gal. graft..... 3.95
2 yr. graft..... 7.50
3 yr. graft.....10.50

JOSHUA YOUTZ (White Daikagura). Very early, waxy white, seedling. Slow, bushy growth. Flower is a little more open than Daikagura and slightly larger, brilliant gold stamen.

1 yr. graft on 3 yr. understock...\$4.00
2 yr. graft on 5 yr. understock... 7.50

LADY EDINGER. The variegated sport of Arrabella, orange red blotched white, large semi-double, upright, compact habit. M. \$5.00

LADY VANSITTART, SHELL. Shell pink sport of the very popular Lady Vansittart and by far the best of the four.

1 yr. graft on 3 yr. understock.....\$4.00

MRS. EDINGERS SEEDLING. A very worth while variety for those who like Bella Romana markings and form of Daikagura. Bushy, upright growth. M.

1 yr. graft.....\$4.00
2 yr. graft..... 6.50
3 yr. graft..... 8.50

OTOME ROSEA VARIEGATED. Same as Bleichroeder Pink except it is blotched white.

1 yr. graft on 3 yr. understock.....\$4.00

PAULETTE GODDARD VARIEGATED. Only a few of them at \$7.50. Looks like a dark red Chandleri, blotched white.

SYLVIA MAY, hybrid, Salunensis x Cuspadata. We are indebted to Dr. Walker Wells of Oakland for this wonderful addition that he named for his daughter. Color, form and texture of the small 3-inch flower reminds you of an orchid. Blooms all up and down the stem, late midseason. Something completely different in Camellias and the sweetest of them all.

1 yr. graft on 3 yr. understock...\$15.00

THE NEW RETICULATAS. You have heard much and will hear more of these startling varieties. Orders accepted for delivery, Spring 1952. Collection of 15 varieties.

\$1,000 per Collection

CAMELLIA PRICES -- GENERAL LIST

GROUP A

2 yr. old in 1 gal. containers...\$1.50
4 yr. old in 3 gal. containers... 4.50
6 yr. old in 5 gal. containers... 7.50

GROUP B

2 yr. old in 1 gal. containers...\$1.95
4 yr. old in 3 gal. containers... 4.95
6 yr. old in 5 gal. containers... 8.95

GROUP C

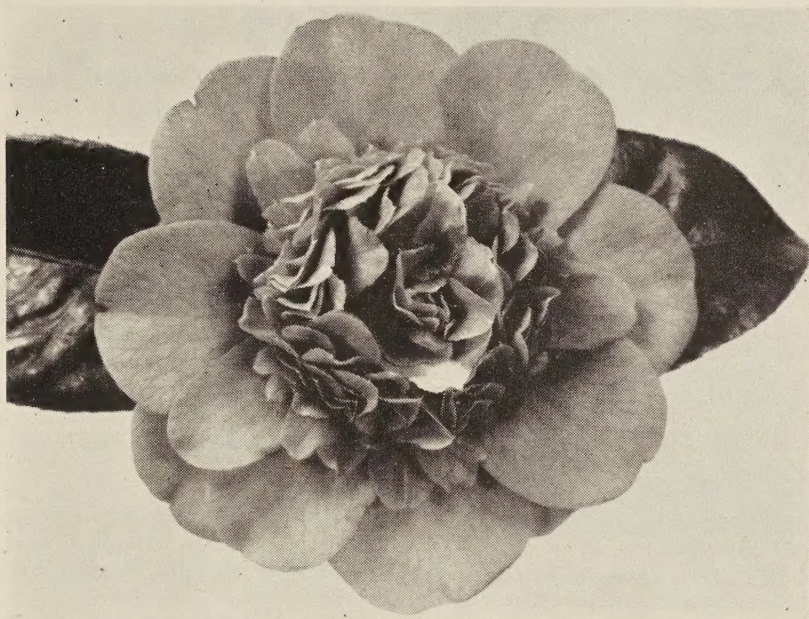

2 yr. old in 1 gal. containers...\$2.50
4 yr. old in 3 gal. containers... 5.95
5 yr. old in 5 gal. containers... 9.95

GROUP D

1 yr. graft on 3 yr. understock...\$3.95
2 yr. graft in 3 gal. containers... 6.95
3 yr. graft in 3 gal. containers... 9.95

Our collection consists of over 600 varieties; we will welcome inquiries on varieties not listed. Specimen plants are available in all but the newest varieties.

We are always looking for and selecting better strains and after years of looking and selecting, we feel that we are entitled to say we have "SELECTED STRAIN" Camellias.

CAMELLIA, C. M. WILSON

HOW TO GROW AND CARE FOR CAMELLIAS

In order that you may derive the maximum enjoyment from the lovely Camellias and Azaleas you have purchased from us these cultural hints are offered. Time and experience have proven to us the use of these directions will insure success.

LOCATION:

The Camellia and Azalea are shade loving plants, so the north or east side of the house or garden is the most suitable planting site; however, protection from the hot summer mid-day sun is of prime importance, regardless of what location you select. Shade is ideally provided by a lath house, naturally provided by trees, and may be temporarily provided by the erection of a lath or cloth shelter for protection during the summer months.

PLANTING CAMELLIAS:

Camellias like a well drained soil and a cool, moist condition for their roots. In the lighter soil dig a hole 24 x 24 x 24 inches and mix the topsoil taken from the hole with equal parts of moistened peat moss and leaf mould. In heavy soil add coarse sand to the peat moss, leaf mould and topsoil. As a heavy soil often presents a drainage problem, use a post-hole digger to further deepen the planting hole by another 18 inches, and fill this hole as well as the bottom of the larger hole with coarse gravel or broken pottery to aid drainage. Tamp the soil well as you proceed with the planting, otherwise the Camellia will settle and be too deep when the job is finished. The plant should always be set a trifle higher than it was in the original container. The root-ball should be moist at the time of planting, and if the root system appears to be crowded the outer roots may be gently loosened with the fingers or a stick. When the planting is finished water thoroughly and slowly, checking to make sure that all air pockets are filled. Watering is very important—remember a plant in light soil will take more water than one in heavy soil, and a plant in the shade will require less water than one in semi-shade. Frequent syringing of the foliage is very beneficial during the summer months, but avoid either wetting or spraying the foliage during the heat of the day as sunburning will result. There can be no cut and dried rule for the watering of Camellias, they must be kept moist, but they will not stand an excess of water. Each garden will have a different water requirement, so you should check your own by digging down to a depth of several inches in the soil near your planting bed to determine from season to season the amount and frequency of irrigation, and keep the soil moist, not sloppy wet.

PRUNING AND DISBUDDING:

Camellias need shaping, some more than others. Any branch having a tendency to grow irregularly should either be straightened by staking or shaped by pruning. (Do not cut the main or upright central stem of the Chandleri Elegans or Francine until the plant has reached the desired height as their growth will be mostly lateral once the upright central stem is cut.) Some varieties have a spindly habit of growth and will be induced to bush by heading back the growth that occurs in the spring. Late season pruning may be postponed until blooming time so that no flowers need be lost. Always use a sharp knife or sharp shears so that a clean, easily healed cut will be made. Make a slanting cut close to an "eye" or leaf joint so no stubs remain to die back. Varieties that produce heavy crops should be disbudded. By mid-summer the flower buds may usually be distinguished from leaf buds, and terminal or tip clusters should be thinned to two buds, those along the stems should be spaced to two inches apart. . . . If possible, select buds at various stages of development so the blossoms will not all mature within a short time of each other. Avoid wetting the flower buds once they start to show color.

CAMELLIAS

CLASSIFICATION USED IN THE FOLLOWING LIST

E.—EARLY. M.—MIDSEASON. L.—LATE.

Class I SINGLE

One row of not over eight (8) petals.
Example: AMABILIS

Class II SEMI-DOUBLE

Two or more rows of petals, conspicuous stamens.
Example: FINLANDIA

Class III ANEMONE FORM

A flat flower with one or more rows of large outer petals; the center a convex mass, composed of petaloids and stamens intermingled.
Example: CHANDLERI ELEGANS

Class IV PEONY FORM

A deep, rounded flower with several rows of outer petals; the center a convex mass of twisted petaloids and stamens.
Example: DEBUTANTE

Class V ROSE FORM

Imbricated petals, showing stamens in a concave center when fully open.
Example: PURITY

Class VI FORMAL DOUBLE

Fully imbricated, many rows of petals, never showing stamens.
Example: ALBA PLENA

ADAH PEARL (B). Pink. Large, semi-double. Vigorous, upright growth. M.

ADMIRAL HALSEY (D). Variegated form of General Dwight Eisenhower. Deep red marbled white.

ADOLPHE AUDUSSON (Adolphe; The Czar) (C). Dark red. Very large, semi-double. Vigorous, compact, sturdy growth. M.

ADOLPHE AUDUSSON VAR. (D). Variegated form of Adolphe Audusson. Dark red spotted white.

AITONIA (D). Rose pink. Large, semi-double. Vigorous, spreading growth. M.

ALBA PLENA (B). Pure white. Large, formal double. Slow, bushy growth. E.

ALEXANDER NOWLIN (A). Red spotted white. Medium large, formal double. Medium, compact, upright growth. M.

ANITA (B). Light pink striped carmine. Medium to large, semi-double. Vigorous, upright, compact growth. M.

ANNE LINDBERGH (B). Rose red. Medium large, semi-peony form. Vigorous, upright growth. M-L.

ARAJISHI (Aloha; Aka-Korako) (A). Dark salmon rose. Large, full peony form. Vigorous, upright, open growth. E.

ARNADA DE BRESCIA (Meig's Var.; Silvery Pink; Principessa Clothida) (A). Rose pink striped white. Medium large, formal double. Medium, spreading growth. E.

ARRABELLA (D). Orange red. Large, semi-double. Vigorous, compact, upright growth. M.

ASPASIA (Emperor of Russia Va.; Czarina) (B). Variegated form of Emperor of Russia. Deep crimson spotted white.

AUGUSTA WILSON (St. Elmo) (A). Soft pink. Medium large, full peony form. Vigorous, upright growth. E-M.

BARBARA MORGAN (D). Bright red. Large, semi-double. (Glorified strain of Firebrand.)

BARONNE DE BLEICHROEDER (Bleichroeder; Otome Var.) (B). Soft pink streaked crimson. Medium to large, rose form double. Slow, compact growth. M.

BEAUTY OF HOLLAND (Jenny Lind) (B). Sport of Herme. Deep pink spotted and blotched white.

BELLA ROMANA (Mme. de Strekaloff; Tricolor Imbricata) (A). Light pink striped and splashed carmine. Medium large, rose form double. Vigorous bushy growth. M.

BERENICE BODDY (Plant Patent No. 605) (C). Light pink with deeper pink underpetals. Medium large, semi-double. Vigorous, upright growth. M.

BESSIE McARTHUR (B). Clear pink. Large, semi-double. Vigorous, bushy growth. L.

BIG BEAUTY (D). White blotched and dashed pink. Large, semi-double to semi-peony form. Vigorous, upright growth. M-L.

BLACK DRAGON. See Kokuryo.

BLEICHROEDER PINK (Casablanca; Huntington Pink) (B). Soft pink sport of Baronne de Bleichroeder.

BLOOD OF CHINA (Victor Emmanuel) (A). Deep salmon red. Large, semi-double to loose peony form. Vigorous, compact growth. L.

BRASSENIE (B). Rose red marbled white. Large, rose form double. Slow, bushy growth. L.

BRILLIANT (Blackwell's Special; Tutcheria) (A). Red. Medium large, rose form double. Medium, upright, compact growth. (Also a variegated form.) M.

BROOKLYNIA (A). Pink mottled and splashed white. Large, formal double. Vigorous, bushy growth. L.

BRYAN WRIGHT (D). Light pink. Medium large, semi-double to loose peony form. Medium, compact, upright growth.

CALIFORNIA (B). Light rose red. Very large, semi-double. Medium, compact growth. M.

CAMPBELL ASHLEY (D). Dark red. Large, loose peony form. Vigorous, upright growth. L.

CAMPBELL ASHLEY VAR. (D). Variegated form of Campbell Ashley. Dark red and white.

CAPTAIN MARTIN'S FAVORITE (B). Deep pink splotted white. Large, formal double. Slow, upright, compact growth. M.

CATHERINE CATHCART (Leila; San Antonio) (A). Pink mottled white. Large, formal double. Slow slender, upright growth. M-L.

CELESTINE (B). Rose pink. Large, rose form double. Vigorous growth.

CHANDLERI ELEGANS (PINK) (Francine) (B). Solid rose pink forms of Chandleri Elegans with center petaloids often spotted white.

CHANDLERI ELEGANS VAR. (B). Rose pink and white. Very large, anemone form. Slow, spreading growth. E-M.

CHASTITY (B). White with cream center. Large, full peony form. Vigorous, upright, compact growth. E-M.

CHO-NO-HANAGATA (Dorothea Blanche) (C). Pink shaded white. Large, semi-double to peony form. Vigorous, upright growth. M.

CLEOPATRA (ANTHONY) (B). White and pink. Large, full peony form. Vigorous, upright growth. M.

C. M. HOVEY (Colonel Firey; Wm. S. Hastie (Miss.); Duc de Devonshire; Solaris; Firey King) (A). Dark red. Large, formal double. Medium, slender, upright growth. L.

COLLETTII (Coletti Maculata; Girard Debailon; Purpliana) (D). Red blotched white. Medium peony form. Slow, bushy growth. M.

COLONIAL LADY (Fragrant Striped) (B). Sport of Herme. White with carmine red stripes and flecks.

CONFLAGRATION (D). Fire red. Large, irregular semi-double. Vigorous, upright growth. M-L.

COUNTESS MARITZA (A). Deep pink striped or blotched white. Medium, formal double. Vigorous, upright, open growth. M.

COUNTESS OF ORKNEY (Americana; Maid of Orleans) (A). White streaked rose. Large, rose form double. Slow, compact growth. M.

CREPE ROSETTE (B). Deep pink veined red with white-margined petals. Large, semi-double. Medium, compact growth. (Also a variegated form.) E-L.

DAIKAGURA (Kiyosu) (B). Bright rose pink spotted white. Large, peony form. Slow, compact growth. E.

DAITERIN (D). Light rose pink. Large, single with mass of petaloids in center. Vigorous, upright growth. E.

DANTE (Pine Cone White; Gloria; Kagira) (A). White. Large, high-centered semi-double. Slow, bushy growth. L.

DEBUTANTE (Sara C. Hastie) (B). Light pink. Large, full peony form. Vigorous, upright growth. E-M.

DELIGHT (C). Rose pink. Medium large, fluted semi-double. Medium, compact growth. M.

DONCKELARI (Mitchell Strain) (D). Red marbled white in varying degrees. Very large, semi-double. Slow, bushy growth. M.

DR. H. G. MEALING (C). Blood red. Very large, semi-double. Vigorous growth. L.

DR. NEWSOME (D). Deep red, occasionally spotted white on one or more petals. Large, irregular semi-double. Medium growth, M-L.

DR. TINSLEY (D). Flesh pink. Medium, semi-double.

DUC D' ORLEANS (Marguerite Gouillon) (A). Cream white with tiny specks of pink. Medium large, full peony form to anemone form. Vigorous, bushy growth. M.

EASTERN SUN (B). White. Large, rose form double to full peony form. Slow, bushy growth. M.

ECSTASY (DOTY) (B). Clear pink. Medium large, formal double. Vigorous, compact growth. M.

ELEANOR FRANCHETTI (A). White striped rose pink. Large, full peony form. Vigorous, slender growth. (Also a solid pink form.) L.

CAMELLIA, FINLANDIA

ELEANOR HAGOOD (D). Pale pink. Medium to large, formal double. Vigorous, upright growth. L.

ELEANOR HAGOOD VAR. (D). Variegated form of Eleanor Hagood. Pale pink and white.

ELEANOR OF FAIROAKS (Vedrine Var.) (B). Variegated form of Vedrine. Deep ruby red marbled white.

ELENA NOBILE (Napa Red) (B). Flame red. Medium, rose form double., Slow, upright growth. L.

ELIZABETH BOARDMAN (C). White. Large to very large, hemispherical, fluted semi-double. Medium, compact, upright growth. M.

ELLA DRAYTON (Climax) (B). Dark red. Medium large, formal double. Vigorous, upright growth. (Also a variegated form.) M-L.

EMPEROR OF RUSSIA (B). Scarlet. Large, multi-centered double to peony form. Slow, compact growth. M.

ETHLINGTON WHITE (Waterloo) (B). White. Large, semi-double. Vigorous, upright, compact growth. M.

EUGENE LIZE (Lady Jane Grey) (D). Light rose pink marbled and splashed white. Medium large, semi-double to peony form. Slow, compact growth. M-L.

F.G. 2 (C). Red blotched white. Large, semi-double. Slow, compact growth. M.

FIMBRIATA (Alba Fimbriata) (C). White. Large, formal double with fringed petals. Slow, bushy, spreading growth. E.

FINLANDIA (Dearest) (B). White. Large, fluted semi-double. Medium, compact growth. E-M.

FINLANDIA RED (Pert; Aurora Rosea) (C). Salmon red form of Finlandia.

FINLANDIA VAR. (Margaret Jack; Aurora Borealis) (B). Variegated form of Finlandia. White streaked crimson.

FIREBRAND (B). Scarlet. Large, semi-double. Vigorous, upright growth. M.

FIREBRAND VAR. (D). Variegated form of Firebrand. Scarlet blotched white.

FLAME (C). Deep flame red. Large, semi-double. Vigorous, upright, compact growth. M.
FLAME VAR. (D). Variegated form of Flame. Deep flame red spotted white.

FLORENCE STRATTON (D). White, some petals solid pink. Large, formal double. Vigorous, bushy growth. M.

FRED SANDER (Fimbriata Superba) (C). Crimson. Large, semi-double with curled fimbriated petals. Vigorous, upright, compact growth. M-L.

FRED SANDER VAR. (Fimbriata Superba Var.) (D). Variegated form of Fred Sander. Crimson and white.

FRIZZLE WHITE (Susan Carter) (C). White. Large, semi-double with waxy crinkled petals. Vigorous spreading growth. M.

GENERAL DWIGHT EISENHOWER (D). Deep red. Large, full peony to anemone form. Vigorous, upright, compact growth. M.

CAMELLIA,
GENERAL
GEORGE
PATTON

GENERAL GEORGE PATTON (B). Bright pink. Large, rose form double. Vigorous, upright, open growth. M-L.

GENERAL ROBERT E. LEE (B). Dark red. Large, semi-double.

GIGANTEA (Emperor Wilhelm; Magnolia King) (C). Red marbled white. Very large, semi-double, rose form double to peony form. Vigorous, upright, open growth. M.

GLEN 40 (C). Deep red. Large, formal to rose form double. Slow, compact, upright growth. M-L.

GLEN 40 VAR. (C). Variegated form of Glen 40. Deep red blotched white.

GLENN ALLAN (C). Deep rose red. Large, semi-double. Slow, strong, upright growth. (Also a variegated form.) M.

GLOIRE DE NANTES VAR. (Fanny Bolis Red; Leeana Superba) (A). Solid red form of Gloire de Nantes Var.

GOSHOGURUMA (Rhodellia King) (B). Deep red. Large, peony form. Slow, upright, bushy growth. M.

GOVERNOR EARL WARREN (C). Rose red. Large, rose form double. Vigorous, open, upright growth. M-L.

GOVERNOR MOUTON (A). Oriental red splotched white. Large, semi-double to loose peony form. Vigorous, upright growth. M.

GOVERNOR MOUTON RED. See Aunt Jetty.

GOVERNOR RICHARD W. LECHE (C). Deep rose pink lightly lined rose. Large, cupped semi-double. Vigorous, slender growth. L.

GYPSY (B). Dark red. Large, rose form double. Vigorous, compact, upright growth. (Also a variegated form.) L.

H. A. DOWNING (Helen of Troy) (A). Rose red veined blood red. Large, semi-double. Vigorous, bushy growth. M.

H. A. DOWNING VAR. (Mardi Gras) (A). Variegated form of H. A. Downing. Rose red marbled white.

HAKU-RAKUTEN (Refugee; Shokko) (C). White. Large, semi-peony form. Vigorous, upright growth. M.

HAKU-TSURU (White Crane; White Stork) (C). White. Large, single to semi-double. Vigorous, upright growth. M.

HARLEQUIN (Sponge) (A). White and clear pink to solid color. Medium, variform of full peony form to formal double. Vigorous, upright, open growth. L.

HENRY MIDDLETON (C). Dark red. Very large, semi-double. Medium, upright growth. E-L.

HERME (Hikaru-Genji; Souv. de H. Guichard; Jordan's Pride) (A). Pink petals with irregular white border and streaked deep pink. Large, semi-double. Vigorous upright growth. M.

HERME PINK (Radiant Glow; Wings; Rosy Dawn) (A). Deep pink sport of Herme.

HIBISCUS (B). Rose pink. Large, single. Vigorous, upright, spreading growth. M.

HIGH HAT (D). Light pink sport of Daikagura.

IMURA (Diana) (B). White. Very large, semi-double. Vigorous, upright, open growth. M.

IWANE-SHIBORI (B). Rose red mottled white. Large, semi-double. Slow, compact growth. M.

JESSICA VAR. (Dorothy M.) (B). Variegated form of Jessica. Bright red blotched white.

J. J. PRINGLE SMITH VAR. (C). Bright red. Very large, semi-double. Vigorous, upright, compact growth. L.

JOHN ILLGES (D). Bright red. Very large, flat, star-shaped single. Medium, loose, upright growth. M.

KENNY (Kenny Glen) (D). Deep rose pink blotched white. Large, semi-double to peony form. Slow, compact growth. L.

KIMBERLEY (B). Carmine with red stamens. Medium, single. Vigorous, upright, compact growth. M.

KING LEAR (C). Variegated form of Finlandia. Cherry red marbled white.

KINGYO-TSUBAKI (Mermaid; Fishtail) (B). Rose pink. Large, full semi-double. Vigorous, spreading growth with dark green foliage shaped like a fishtail. M.

KISHU-TSUKASA (Admiral Nimitz; Captain John Sutter) (B). Deep rose pink and white. Large, formal double. Vigorous, compact, upright growth. M-L.

KUMASAKA (Lady Marian; Beni-Karoko; Jeanne Kerr) (B). Rose pink. Large, rose form double. Vigorous, compact, upright growth. M-L.

KUMASAKA VAR. (Deacon Dodd; Gay Boy) (B). Variegated form of Kumasaka. Rose pink blotched white.

LADY CHARLOTTE (D). Clear pale pink. Large, semi-double. Vigorous, compact, upright growth. M.

LADY CLARE (Empress; Grandiflora Rosea; Akasi-Gata) (B). Deep pink. Very large, semi-double. Vigorous, bushy growth. M.

LADY HUME'S BLUSH (C). White blushed pink. Medium, formal double. Slow, loose, spreading growth. M.

LADY MARY CROMARTIE (C). Deep rose pink. Large, semi-double. Slow, upright, sturdy growth. M-L.

LADY OF THE LAKE (C). White. Large, irregular semi-double. Vigorous, loose, spreading growth. M.

LADY RUTH (Rose Glory VA) (C). Variegated form of Rose Glory. Rose pink and white.

LADY VANSITTART (B). White striped rose pink. Large, semi-double. Slow, bushy growth with holly-like foliage. M.

LADY VANSITTART RED (B). Deep pink to red form of Lady Vansittart.

LALLAROOK (Laurel Leaf; Il Tramonto; Contessa Lavinia Maggi) (C). Pink marbled white. Large, formal double. Slow, compact, upright growth with foliage resembling that of a laurel. M-L.

LA REINE VAR. (Lady Mary Cromartie Var.; Forever Amber) (C). Variegated form of Lady Mary Cromartie. Deep pink blotched white.

LAWRENCE WALKER (D). Red. Large, loose peony form. Vigorous, compact growth. M.

LEONA BOLEN (B). Vivid red, sometimes spotted white. Medium large, semi-double. Slow, low, spreading growth. M-L.

LETITIA SCHRADER (D). Dark red. Very large, medallion-shaped peony form. Medium, compact, upright growth. M.

LEUCANTHA (Wakanoura White; Tricolor Sieboldi White) (A). White form of Tricolor Sieboldi.

LOIS HILL (Elizabeth Colville) (A). Sport of Tricolor California. Light pink veined deeper pink and edged white.

LOTUS (Grandiflora Alba; Sode-Gakushi) (B). White. Very large, semi-double. Vigorous, upright growth. M.

LOUISE MACLAY (C). Deep pink veined deep rose. Large, semi-double. Slow, spreading growth. (Also a variegated form. Reported that true priority name is Grandiflora Rosea.) M-L.

LOUISE-ONETTA (D). White. Large to very large, semi-double to semi-peony form. Vigorous growth.

LOUISE WEICK (B). Fire red. Large, semi-double. Vigorous, upright growth. M-L.

MADGE BURT MILLER (Chandleri Alba) (B). White. Large, anemone form. Medium, upright growth. M.

MAGNOLIAEFLORA (SOUTHERN) (C). Blush pink. Medium large, semi-double. Medium, compact, upright growth. B.

MAGNOLIAEFLORA ALBA (B). White with cream center. Large, semi-double. Medium, bushy growth. M.

MAGNOLIA QUEEN (Priscilla Brooks) (C). White with red stripes. Very large, irregular semi-double. Medium, bushy growth. L.

MARCHIONESS OF EXETER (B). Light pink. Large, full peony form. Vigorous, loose, wide-spreading growth. (Also a variegated form.) E-M.

MARCHIONESS OF SALISBURY (B). Dark red marked white. Medium, peony form. Slow, bushy growth. M.

MARGARETE HERTRICH (B). White. Large, formal double. Vigorous, compact, upright growth. M.

MARGARET HIGDON (Elizabeth Grandy) (C). Rose red, sometimes showing white-margined petals. Large, semi-double. Vigorous, compact, upright growth. M.

MARGHERITA COLEONI (Campbelli; General Douglas MacArthur) (A). Dark red. Large, rose form double. Vigorous, upright growth. L.

MARGHERITA COLEONI VAR. (Adzuma-Shibori; Mary Hare) (A). Variegated form of Margherita Coleoni. Deep red blotched white.

MARION MITCHELL VAR. (B). Variegated form of Marion Mitchell. Scarlet red heavily variegated with white.

CAMELLIAS—Continued

MARJORIE MAGNIFICENT (D). Light pink. Medium, semi-double to anemone form. Upright growth.

MARQUIS D'EXETER (B). Flesh pink striped and speckled with deep pink to solid pink and white. Large, full peony form. Vigorous, wide-spreading growth. M.

MARTHA BRICE (D). Light lavender pink. Large, semi-double to loose peony form. Vigorous, spreading growth. M.

MARY CHARLOTTE (C). Light pink. Medium large, flat anemone form. Vigorous, compact, upright growth. M.

MATHOTIANA (Julia Drayton; Mathotiana Rubra; Purple Dawn; William S. Hastie; Purple Emperor) (B). Scarlet. Very large, rose form double. Vigorous, upright, compact growth. M-L.

MATHOTIANA ROSEA (Pink Beauty; Laura Polka) (A). Clear pink sport of Mathotiana Alba.

MATHOTIANA VAR. (Julia Drayton Var.; Paulina) (B). Variegated form of Mathotiana. Scarlet blotched white.

MATOSI (B). Soft pink marbled white. Medium, formal double. Medium, upright, compact growth. M.

MILADY (Coral Sea) (B). Sport of Elizabeth. Deep pink blotched white.

MISSIMA (D). Ivory white flecked light pink to solid red and delicate pink and white. Medium, peony form.

MME. DE MAINTENON (B). Light pink. Large, cup-shaped semi-double. Moderately vigorous, loose, upright growth. M.

MME. HAHN (D). Bright pink. Large, semi-double. Vigorous, upright growth. M.

MONJISU (California Donckelari Var.) (B). Cherry red marbled white. Medium, rose form double. Slow, bushy growth. M.

MONJISU RED (California Donckelari Red; Otome Red; Shisu) (B). Solid cherry red form of Monjisu.

MRS. CHARLES COBB (C). Dark red. Large, semi-double to loose peony form. Vigorous, spreading growth. M.

MRS. CHARLES SIMONS (C). White. Very large, semi-double to loose peony form. Medium, compact, spreading growth. M-L.

MRS. CONFER (Uncle Sam Var.; Betsy Ross) (B). Variegated form of Uncle Sam. White flecked rose bed.

MRS. FREEMAN WEISS VAR. (C). Variegated form of Mrs. Freeman Weiss. Rich pink and white.

MRS. HOWARD ASPER (C). Light pink. Very large, cup-shaped semi-double of Lotus form. Medium, compact growth. (Said to be same as Hana-Fuki.) M.

MRS. JOSEPHINE M. HEARN (B). Rose pink. Large, fluted semi-double. Medium, compact, upright growth. M.

MRS. K. SAWADA (Plant Patent No. 481) (John Marshall) (D). Delicate pink. Medium large, formal double. Vigorous, upright, compact growth. M.

MRS. MARIE KEATING (B). Light pink. Medium large, peony form. Vigorous, compact growth. M.

MRS. TINGLEY (C). Salmon silver pink. Large, formal double. Compact growth. M-L.

NAGASAKI (Lady Audrey Buller; Mikenjaku; Candida Elegantissima; Tennin-Kwan) (B). Rose pink marbled white. Very large, semi-double. Slow, spreading growth. M.

OLIVE LEE SHEPP (B). White marked deep red. Medium, semi-double. Vigorous, upright growth. M.

ONJI (Lady Clare Var.; Empress Var.) (C). Variegated form of Lady Clare. Deep pink marbled white.

OTOME PINK (B). Light pink. Medium large, formal double. Slow, spreading, compact growth. M-L.

OTOME WHITE (Bleichroeder White; Mrs. Helen Reynolds) (B). White form of Baronne de Bleichroeder.

PAEONIAEFLOA (Flore Celeste) (A). White to cream white with a few rose-red lines or dashes. Very large, shaggy peony form. Medium, bushy growth. M.

PAULETTE GODDARD (D). Red. Very large, semi-double to loose peony form. Vigorous, upright growth. M.

PAX (Snow Doll) (C). White. Large, formal double. Medium, compact, upright growth. M-L.

PEARL HARBOR (D). Dark red. Large, irregular semi-double. Vigorous, compact, upright growth. L.

PIERETTE (B). Flesh pink striped cherry red. Large, formal double. Slow, bushy growth. M.

PINK BALL (A). Soft pink. Medium large, full peony form. Vigorous, compact, upright growth. M.

PINK DAIKAGURA (Daikagura Red; Shangri-la) (B). Deep pink to rose red sport of Daikagura.

PINK LADY (CALIF.) (C). Light pink sport of Paeoniaeflora.

PINK POPPY (A). Soft pink. Small, single to semi-double. Slow, upright growth. M.

PINK STAR (A). Rose pink. Large, semi-double. Slow, compact, upright growth. M.

POPE PIUS IX (Imbricata Rubra Plena; Prince Eugene Napoleon; Ladiner's Red; Carlotta Grissi; Rubra Plena) (C). Dark red. Large, formal double. Medium, compact, upright growth. M.

PRIDE OF DESCANSO (C). White. Very large, semi-double to loose peony form. Vigorous, upright growth. M.

PRIDE OF GREENVILLE (C). Bright red. Large, full peony form. Vigorous, upright growth. M-L.

PRIMA DONNA (C). Bright pink. Large, semi-double. Vigorous, bushy growth. M-L.

PRINCE ALBERT (Concordia; Beautiful; Ellen McKinsey; Normandy; Gomez) (A). Clear pink marbled white. Medium large, peony form. Vigorous, compact, upright growth. M.

PROFESSOR CHARLES S. SARGENT (A). Dark red. Medium, full peony form. Vigorous, compact, upright growth. M.

PROFESSOR CHARLES S. SARGENT VAR. (Speciosa; Red Shadow) (B). Variegated form of Professor Charles S. Sargent. Dark red mottled white.

CAMELLIA, MRS. JOS. M. HEARN

ROSE GLORY (C). Light rose pink. Large, semi-double. Medium, compact, upright growth. E.

ROSE QUEEN (Busch Garden Red) (A). Rose pink. Medium large, formal double. Vigorous, bushy growth. M.

ROSE QUEEN VAR. (A). Variegated form of Rose Queen. Rose pink spotted white.

RUBRA VIRGINALIS (Jeanerette Pink) (A). Light pink. Medium large, full peony form. Medium, upright growth. L.

SARA-SA (A). Flesh pink dotted and striped darker pink. Large, semi-double. Vigorous, upright, open growth. M.

SCARLETT O'HARA (C. M. Hovey Var.) (A). Variegated form of C. M. Hovey. Dark red spotted white.

SEASHELL (A). Pink penciled in deeper tone. Small, semi-double. Vigorous growth. M-L.

SENATOR DUNCAN U. FLETCHER (C). Rose red to dark red. Large, semi-double to peony form. Slow, upright growth. M-L.

SHALIMAR (B). Light pink. Medium, informal semi-double. Vigorous, bushy growth. M.

SHIN-AKEBONO (D). Light pink. Large, cup-shaped semi-double. Medium, compact growth. M.

SHIRA-TAMA (C). White. Large, rose form double. Vigorous, upright, open growth. M.

SIERRA SPRING (D). Variegated form of Mme. Hahn. Bright pink and white.

SMILING BEAUTY (B). Delicate pink. Medium large, semi-double. Medium, upright growth. M.

SOUV. DE BAHUAUD LITOU (Lady Frances; Carole Lombard) (B). Light pink sport of Mathotiana Alba.

STANDARD (A). Light rose pink to white in center shading out to darker rose pink in outer petals. Large, formal double. Medium, compact, upright growth. L.

ST. ANDRE (Rose Hill Rubra) (C). Bright red. Very large, semi-double to anemone form. Medium, compact, upright growth. M.

CAMELLIA, FIMBRIATA

PROFESSOR PHILLIPPO PARLATORE (C). White with some petals lined pink. Medium large, formal double.

PURITY (Neige d'Ore; Shiragiku) (A). White. Medium large, rose form double. Vigorous, upright growth. L.

QUEEN VICTORIA'S BLUSH (Mrs. Moore's Speckled) (B). Pale pink spotted deeper pink. Medium large, formal double. Medium, compact, upright growth. M.

REGINA DEI GIGANTI (Hall Townes; Gloriosa; Rainsford Cantelou) (C). Bright pink. Large, fluted semi-double. Medium, compact, upright growth. M-L.

REV. JOHN BENNETT (B). Salmon pink. Very large, semi-double. Medium, spreading growth. M-L.

REV. JOHN G. DRAYTON (Mary E. M.) (B). Light pink. Medium large, semi-double. Vigorous, compact, upright growth. M-L.

RIO RITA (B). Dark red sport of Anita.

ROBERT E. LEE (B). Dark red with red stamens. Large, irregular semi-double. Vigorous, compact growth. M.

ROSARY (Formerly Finlandia F. N.) (Pink Glory) (C). Light rose pink. Large, loose semi-double. Medium, loose, upright growth. M.

ROSARY VAR. (Pink Glory Var.) (C). Variegated form of Rosary. Light rose pink and white.

ROSEA PLENA (D). Rose pink with dark veins. Medium large, formal double. Vigorous, compact, upright growth. M.

ROSEA SUPERBA (C). Deep rose pink. Very large, rose form double. Vigorous, compact, upright growth. L.

BETTY McCASKILL. Soft pink tinted and margined rose bed. Small, semi-double.

SALUENENSIS

APPLE BLOSSOM (A). Pink and white. Small, single.

SPECIES UNKNOWN

DAWN (C). White margined pale pink. Semi-double.

RHODODENDRONS

RHODODENDRON, MARS

PLANTING: Rhododendrons are essentially surface rooters, therefore, plant them so that the top of the root ball is barely one inch below the soil level. We feel safe in saying that 90% of the cultural difficulties encountered are directly traceable to deep planting.

Dig a hole several inches in excess of the ball's depth and width, fill in around the ball with equal parts of peat, leaf mold, tamp with a shovel handle to prevent undue settling and water thoroughly. In a heavy clay, we advise that the soil be removed to at least twice the diameter of the ball's width and replaced with a silty loam.

MULCHING: After planting, mulch with two or three inches of peat, decayed leaves, or dried fern. This mulch has a three fold purpose. (1) It protects the roots from drying out. (2) It helps conserve moisture during the summer heat. (3) It ultimately becomes a source of food available to the surface feeding roots. On well established specimens, a top dressing of decayed cow manure, applied before the fall rains, will be found beneficial.

WATERING: The progenitors of most Rhododendron hybrids are native to regions where the humidity is relatively high so that during warm summer days the plants appreciate overhead sprinkling night and morning to reduce the evaporation rate on leaf surfaces. They imbibe water in quantity during the growing season, but overwatering is disastrous if the soil has been insufficiently lightened and water accumulates about the root system. The question of adequate drainage cannot be too strongly emphasized. A minimum of water is required during the dormant period which occurs in late fall.

SHELTER: Partial shade and protection from cutting winds is essential. Good shade trees include the following: pines, oaks, larch, larger magnolias and the flowering fruit trees. Dense overhead shade is not to be recommended because a certain amount of sunlight is necessary to "ripen" the wood in order that flower buds may be formed and also to prevent the plant from becoming leggy and drawn.

Group One

PRICES

12 to 15 inch.....	\$ 9.50
18 to 24 "	12.50

DAVID (B). A first class hybrid out of an unknown seed parent and Hugo Koster. It bears a striking resemblance to Earl of Athlone but is much superior in habit and with a larger and more intense blood red spherical truss. Midseason bloom. A Lord Swaythling hybrid.

FUSILIER (C) (Illiottii x Griersonianum). The habit of this excellent hybrid is medium spreading and the trusses carry from twelve to thirteen bell shaped flowers which are brilliant red and faintly spotted darker red within. Blooms in late May.

**** **LADY CHAMBERLAIN (C) (cinnabarinum var. Roylei x Royal Flush, orange var.).** This hybrid along with Lady Roseberry and their various forms offer a distinct "break" in Rhododendrons. The tubular flowers are carried in pendant trusses of from six to eight flowers. They are of good substance, rich orange in color, fully 3 inches long and flaring to about two inches wide at the mouth. Excellent for training against a protected wall or trellis. Blooms in late May and is of slender upright growth.

**** **LADY ROSEBERRY (C) (cinnabarinum v. Roylei x Royal Flush, pink form).** Similar to the preceding but with lovely pink flowers.

MARGARET DUNN VAR. TALISMAN. This is a seedling of great merit which was selected by us out of the Margaret Dunn cross, discolor x Fabia. The

rounded trusses contain from 8 to 9 open funnel shaped flowers which are an unusual color combination, resembling the well known Talisman rose. Interior of the flower is suffused gold with pink shading towards the edges of the lobes. Medium habit. Late May. Very scarce.

**** **NAOMI (Aurora x Fortunei).** We consider Naomi and its varieties to be one of the most outstanding group of hybrids sent to us from Exbury. The various Naomi forms listed below have a neat sturdy habit and resemble the Loderis in appearance. However, unlike the Loderis, they are compact in habit, with smaller leaves and will withstand more exposure. The trusses are rounded, composed of from 9 to 10 flowers, which individually are fully five inches wide.

**** **NAOMI VAR.** Flowers edged with pink, deeper yellow throat.

*** **WHITE SWAN (B) (decorum x Pink Pearl).** An exceptionally fine Rhododendron with a medium habit and attractive foliage. The trusses are very tall, built up, and the individual flowers are large, slightly suffused pink in the early stages but eventually become pure white.

**** **ROYAL FLUSH (E) (cinnabarinum x Maddenii).** One of the parents of Lady Chamberlain and Lady Roseberry and similar in many respects to its offspring. We are offering the pink and orange forms of this outstanding hybrid. Made by J. C. Williams.

AZMA (Griersonianum x Fortunei). Graceful trusses of trumpet shaped blossoms reminiscent of Griersonianum, but with larger flowers and an unusual shade of pink. Special Merit Award at the Oakland Spring Flower Show in 1947. Medium habit, late midseason bloom.

*** **AZOR (B) (Griersonianum x discolor).** A vigorous grower with very large flowers of soft salmon. Late season blooms.

*** **BLUE PETER (A).** One of the best hybrids in this color range. The flowers are large pale lavender blue with a deep blotch. Very good foliage. Named after a British Naval flag which is used to signify that the vessel is ready to leave port.

*** **CILPINENSE (B) (ciliatum x moupinense).** A small compact dwarf hybrid with large quantities of soft pinkish white flowers. Early season blooms.

DIANE (campylocarpum x Mrs. Lindsay Smith). Combines the color of campylocarpum with the size of Mrs. Lindsay Smith to produce individually large flowers that are pale yellow. Medium habit, blooms in May.

*** **DR. O. BLOK (B).** Vigorous growing Grifithianum hybrid with a large conical truss. The individual flowers are very large, pale pink, with darker edges. Late bloom. Medium habit.

**** **EARL OF ATHLONE (B).** One of the finest blood red hybrids. The well formed trusses are of good substance and do not fade. Highly recommended. Early midseason bloom. Tall habit. Has received many awards at flower shows.

*** **ELSPETH (B).** A fine compact truss. The flowers at first are scarlet opening to rich apricot. Early midseason bloom. Compact bushy habit.

F. C. PUDDLE (neriiflorum x Griersonianum). Lord Aberconway considers this to be one of his finest red hybrids and named it after his good friend. A very compact growing orange red which has taken many awards at the R. H. S. shows in England.

*** **FAGGETTER'S FAVOURITE (B).** A Grifithianum hybrid. Large handsome trusses of bluish pink blossoms. Strong grower and makes a pleasing combination when planted with the Loderi varieties. Medium tall habit.

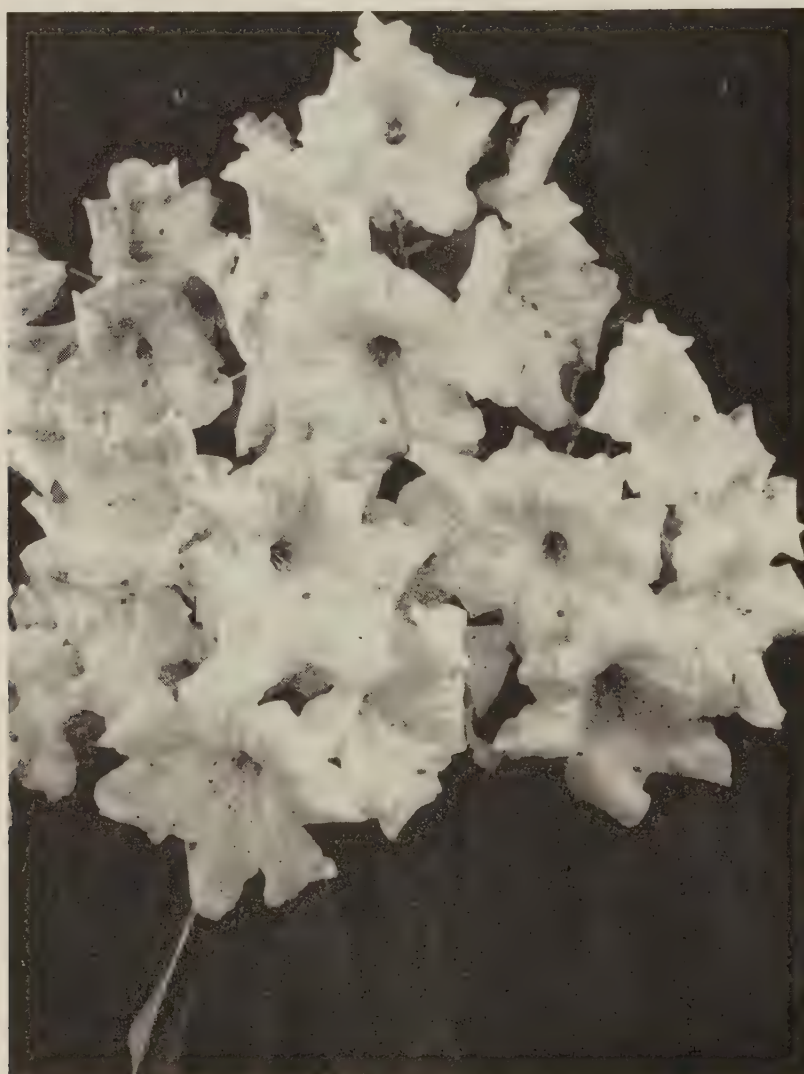

RHODODENDRONS Grp. 2 —Cont'd

- *** **J. H. VAN NES (B).** A pleasing shade of soft red. Flowers in late midseason. Medium compact habit.

JEAN MARIE DE MONTAGU (B). A Dutch hybrid with very good dark green foliage and rounded trusses of bright crimson flowers. Late midseason bloom. Medium sturdy habit.

- *** **LADY BLIGH (B).** Built up trusses of large strawberry red flowers which fade to a very rich pink. Midseason bloom. Compact habit. Very good.

- **** **LODER'S WHITE (B).** The best white rhododendron in cultivation for all purpose planting. The truss is well formed and the individual flowers are very large, frilled, opening with a tinge of pink and fading to pure silvery white. Early midseason bloom. Medium spreading habit.

RHODODENDRON, LODERI KING GEORGE

- **** **LODERI (C) (Griffithianum x Fortunei).** The entire Loderi group include the most outstanding hybrids in cultivation. The flowers are all very large, measuring six to seven inches in diameter on established plants, and are scented. This variety opens shell pink, fading to white and the flowers are ruffled at the edges. Midseason bloom. Tall spreading habit.
- **** **LODERI KING GEORGE (C).** A form of Loderi with giant trusses of ivory white blossoms.
- **** **LODERI VENUS.** Same as above but with shell pink flowers.
- *** **MARINUS KOSTER (B).** A strong growing Dutch hybrid with good foliage and

large trusses of deep pink flowers with a brown blotch.

- **** **MARS (B).** Tight trusses of deep true red flowers. Late midseason bloom. Medium compact habit. The truss has from 16 to 22 flowers.
- **** **MAY DAY (C) (haematodes x Griersonianum).** Medium compact, spreading habit of growth. Scarlet bell shaped flowers in May. Highly recommended.
- *** **MRS. FURNIVAL (B).** An exceptional hybrid. The striking flowers are clear light pink with a sienna blotch. Holds its large dark green foliage well. Late midseason bloom. For a succession of bloom plant with Mrs. G. W. Leak. Compact medium habit.

RHODODENDRONS Grp. 2 —Cont'd

- *** **MRS. G. W. LEAK (B).** Shapely trusses of pink flowers with brown purple blotch in upper petal. Early midseason bloom and taller growing than Mrs. Furnival.
- *** **MRS. PHILIP MARTINEAU (B).** A most attractive rhododendron. Tall trusses of rose pink flowers with a pale yellow blotch in the upper petal. Midseason bloom, medium habit.
- *** **PURPLE SPLENDOR (A).** The finest purple in cultivation. The flowers are a rich deep royal purple. Late midseason bloom. Medium habit.
- *** **ROMANY CHAI (B) (Moser's Maroon x Griersonianum).** Another of the late Lionel de Rothschild's hybrids. The flowers are a large deep velvety scarlet. Late to late midseason bloom. Medium habit.

- *** **SOUV. OF W. C. SLOCOCK (B).** A very neat growing compact hybrid with compact trusses of primrose yellow flowers which are pink in bud. Midseason blooms.
- **** **TALLYHO (C) (Griersonianum x eriogynum).** This outstanding hybrid is well worth a place in every collection. The flowers are a bright hunting coat scarlet. Bushy habit and blooms in June.
- VAN NES SENSATION (C).** Enormous trusses of pale lilac flowers. Handsome foliage and strong grower. Midseason bloom. Medium tall habit. Very much admired at the 1948 rhododendron show in Portland.
- ** **VULCAN (B) (Mars x Griersonianum).** A very floriferous hybrid with bright red flowers. Special Merit Award at the 1948 Oakland Spring Flower Show.

- *** **BEAUTY OF LITTLEWORTH (B).** A strong growing Griffithianum hybrid with handsome foliage and large conical trusses of white flowers which are speckled with dull crimson on the upper petals. Tall habit. Early midseason bloom.
- *** **BETTY WORMALD (B).** A superior Pink Pearl, blooming a week later with a large truss of light pink flowers and a pale purple blotch on the upper petal. Midseason bloom. Medium tall habit.
- *** **BROUGHTONII AUREUM (C).** An Azaleodendron of great merit. The bushy plants produce an abundance of rounded trusses which have yellow flowers with darker blotches on the upper petals. Medium bushy habit. Midseason bloom.
- ** **C. B. VAN NES (B).** A splendid variety. Dark scarlet trusses of waxy flowers. Erect habit and good foliage. Midseason bloom.
- *** **DAWN'S DELIGHT (B).** A Griffithianum hybrid with rich carmine buds opening to a beautiful soft pink. Late midseason bloom. Medium habit.
- EUREKA MAID (PTO.).** An improved pink pearl. Deeper color does not fade.
- *** **FABIA (B) (dichroanthum x Griersonianum).** A vigorous grower with numerous trusses of orange salmon bells. Late blooming season. Low compact habit.
- **** **GILL'S CRIMSON (B).** A Griffithianum hybrid with dark blood red waxy flowers. Early flowering. Medium tall habit.
- ** **HUGH KOSTER (B).** A greatly improved Doncaster with bright crimson trusses. Medium compact habit. Midseason bloom.
- *** **LADY PRIMROSE (B).** Neat trusses of lemon yellow flowers with interiors spotted red. Midseason bloom. Medium compact habit.

- * **LADY STUART OF WORTLEY (B).** Very large rich pink flowers in tall trusses. Midseason bloom. Tall habit.
- ** **LANGLEY PARK (B).** An attractive plant with shapely trusses of deep glowing, red waxy flowers. Midseason bloom. Medium habit.
- *** **MADAME FR. J. CHAUVIN (B).** Rosy pink flowers with a deep blotch on a paler center. Well formed truss. Midseason bloom. Medium tall habit.
- ** **MRS. C. B. VAN NES (B).** A beautiful shade of deep pink. Blooming in early May and very much admired at the rhododendron shows in Portland and Seattle. Medium habit.
- ** **MRS. E. C. STERLING (B).** A Griffithianum hybrid of good habit. Flowers a pleasing blush pink shading to lilac, very tight conical truss. Midseason bloom.
- ** **MRS. LINDSAY SMITH (B).** Vigorous grower with large trusses of white flowers in June. The individual blooms are large. Rated in England as second only to Loder's white for all purpose planting. Tall habit.
- ** **MRS. MARY ASHLEY (B).** A lovely shade of salmon pink over cream. Midseason bloom and medium habit.
- **** **UNIQUE (B).** A very compact growing hybrid with neat trusses of waxy pale yellow flowers. Early midseason bloom.
- ** **UNKNOWN WARRIOR (B).** Good shaped trusses of bright red flowers. Vigorous grower. Early season bloom. Medium spreading habit.
- *** **ZUIDER ZEE (B).** A compact upright yellow variety. Midseason bloom.
- PINK PEARL.** Probably the most popular of the pinks. Large tight truss. April.

HIMALAYAN VARIETIES—All strong, spicy fragrance, blooms are white with variations of pink shading and in clusters of three or four.
